Connect the dots and match

Basic Shapes

Connect the dots and match

The image shows a matching exercise for basic shapes. On the left, there are seven empty shapes: a square, a triangle, a circle, a star, a rectangle, an inverted triangle, and a diamond. In the middle, there are seven pairs of dots connected by orange lines, forming the same shapes. On the right, there are seven shapes with dots at their vertices, some of which are already connected by orange lines. The shapes are: a circle with 8 dots, a square with 4 dots, an inverted triangle with 3 dots, a diamond with 4 dots, a star with 10 dots, and a rectangle with 4 dots. Dashed blue lines separate the shapes on the right into rows corresponding to the shapes on the left.
