## Apple a Day

Name: $\qquad$ Score: $\qquad$
Because the school doctor said that an apple a day would keep him away, a group of friends counted the number of apples they ate during a couple of weeks. The picture graph shows how many apples they ate. Use the information to answer the questions.
Week 1

Each $\square$ stands for 3 apples

1) How many apples did they eat in week 2 ?
2) How many apples did they eat in week 4 ?
3) How many more apples did they eat in week 1 than in week 4 ?
4) In which week did they eat 9 apples more than in week 4 ?
5) How many apples did they eat in all 4 weeks?
6) If each apple 4 has apple seeds, how many seeds could they find in week 4 ?

## Answers

Because the school doctor said that an apple a day would keep him away, a group of friends counted the number of apples they ate during a couple of weeks. The picture graph shows how many apples they ate. Use the information to answer the questions.
