

# Adding Fractions

Shade the sums and write the addition sentences

$$\frac{2}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

# Adding Fractions

Shade the sums and write the addition sentences

$$\frac{2}{4} + \frac{1}{4} = \frac{3}{4}$$

$$\frac{1}{5} + \frac{3}{5} = \frac{4}{5}$$

$$\frac{3}{6} + \frac{2}{6} = \frac{5}{6}$$

$$\frac{3}{6} + \frac{1}{6} = \frac{4}{6}$$

$$\frac{2}{8} + \frac{4}{8} = \frac{6}{8}$$

$$\frac{5}{8} + \frac{1}{8} = \frac{6}{8}$$

$$\frac{1}{9} + \frac{6}{9} = \frac{7}{9}$$
