$\qquad$
A flower shop asked us to make a line graph of the number of flower bunches they sold during a period of 6 weeks. Use the following clues and statements and complete the line graph.

- The shop sold 100 bunches in the first week
- 200 bunches more were sold in week 2
- The price of 1 flower bunch was $\$ 5$. The total sales in week 3 was $\$ 1,000$
- The ratio of flower bunches in week 3 to week 4 was 2 : 5
- 4 times more flower bunches were sold in week 5 than in week 1

- The shop sold 1,900 flower bunches in these 6 weeks.
