

Listening to the Radio

Name: _____ Score: _____

A lot of people listen to the local radio station in my town. Use the following clues and make a line graph based on the number of listeners per hour

- 300 people were listening to the radio at 6 am
- 50% more were listening to the radio at 7 am than at 6 am
- The ratio of people listening to the radio at 7 am and those at 8 am was 9 to 10
- 20% fewer people were tuned in to the radio at 9 am than at 8 am
- 12.5% fewer people were listening at 10 am than at 9 am
- The average number of listeners during these hours was 400 people
