## Multiplication Shape Algebra

Given the products of the shapes in each row and column, find the value of them.

$\bigcirc=\square$

$\triangle=\square$

$\Sigma=\square$

$\omega=\square$
$O=\square$

## Answers

Given the products of the shapes in each row and column, find the value of them.

$\hat{n}=1$

$O=2$

$$
\begin{array}{ll}
\square=2 & O=2 \\
\Delta=3 &
\end{array}
$$

$\begin{array}{ll}\Delta=3 & O=5 \\ \hat{\Delta}=4 & \end{array}$
$\square=3$
$\hat{w}=6$
$\bigcirc=4$
