## Answer to brain teasers

**puzzle 1 :** B

Each symbol moves 1 position in the next square.

**puzzle 2 :** 6

7 and 6 make 13, and minus 1 gives the middle number 12.

**puzzle 3 :** 8

The sum of the numbers on the left and right are the same as the 2 digits in the middle.

**puzzle 4 :** 4

In the top rows the first 2 numbers multiplied give the 3rd number.  
In the lower row, you must divide.
